VACANCY BULLETIN : 001/2024 REF 001
DESIGNATION : SENIOR MANAGER GEOGRAPHICAL INFORMATION SYSTEMS
GROUP : ENERGY MANAGEMENT
DEPARTMENT : PROPERTY DEVELOPMENT & GIS
REPORTING TO : GENERAL MANAGER: PROPERTY DEVELOPMENT & GIS

Appointment Minimum Requirements:

- National Diploma (NQF 6) in Geographic Information Systems
- 7 years' experience, of which 3 years must be at middle management level

Added advantage:

- Experience in the Electrical industry
- Esri ARCGIS/Advanced Esri ARCGIS (SAQA Accredited)

Primary Function

The Senior Manager: GIS is responsible for managing and leveraging GIS resources and governance activities of City Power and is responsible in ensuring the accuracy and integrity of City Power's geospatial and non-spatial data contained in various systems and documents.

Key Responsibilities

Provide direction for an enabling environment in order to provide City Power with best practice in the department. Drive the department to function as a collaborative, integrated organisation, which functions as one within the confines of the strategic mandate of City Power. Define a strategic framework for the operating model of the department which includes the alignment of operations, organisational structure, people, processes and technology to the overall City Power business strategy. Provide the strategic oversight and guidance for integrating organisational performance. Direct the leverage of scale and reinforce cross cutting synergies at a central level across the department. Lead and co-ordinate the GIS team. Ensure that the appropriate delegation of authority schedules are in place. Maintain the GIS system and data integrity, security and confidentiality. Acquire and handle data from various sources to populate geographical databases sources include GPS systems and raw data from satellites. Align data with company standards and procedures and ensure quality and integrity of the data in line with policies. Contribute to the design of procedures that will direct the capture and verification of data. Determine the performance measurement/ management framework, the key performance indicators (KPIs). Manage the resources of the department, effectiveness and leading cost control activities to maximise efficiency. Drive the safety of people and minimise injury and the loss of productivity through safety incidents across the department. Drive the safety of people and minimise injury and the loss of productivity through safety incidents across the department. Initiate strategies to drive professional and customer-centric behaviours across the department. Represent the department at various appropriate forums and confidently raise issues at the appropriate governance structures. Provide direction for overarching conformance to customer Service Level Agreements (SLAs).
